

With an extensive knowledge of today's modern horticulture, we offer our clients personal advice and deliver top quality products for a wide variety of agricultural needs of professional growers.

Expert advice & quality products **you can rely on**

Greenhouse Plastic

We supply greenhouse plastic in sizes ranging from 3.25m to 17m in width, which can be cut to the desired length. We also supply mulch for open field farming, as well as silage that can also be used as a groundcover inside greenhouse structures.

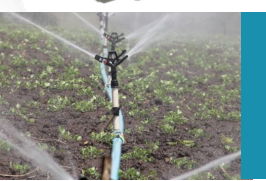

Growing medium

We supply professional growing substrates for the propagation of seedlings, ornamentals, fruit bearing trees, as well as forest trees. Substrates include Peat, Coir and Crop specific blends.

Horticulture

We supply a variety of horticultural products which include pots, trays, clippings, groundcover, bamboo sticks, and a host of other products that's mainly used in the floriculture, horticulture and agricultural sector.

Irrigation

When it comes to irrigation, we provide industry leading drip and overhead irrigation. Our range includes driplines, button drippers, foggers, micro irrigation and a host of other drip and micro irrigation solutions.

Technology

We currently supply seeding, potting and bundling machines to the floriculture and horticulture industry. Industry specific technology solutions can be offered for crop specific requirements.

Crop Supplies SA delivers a wide range of substrates, rooting-media, and pots & trays, for the professional growers. The quality of our products is constantly checked and managed, for us to deliver the best products to our customers.

We offer tailor-made advice in the cultivation of flowers, vegetables, soft fruit and forestry. Through regular visits to your company, Crop Supplies can help you to make the right choices.

We give good advice and service, suited to **your requirements.**
